- **Version Control:** Git, GitHub and Gitlab

ABOUT ME

I'm a Frontend Developer with over 3 years of experience building web applications using React, Next.js, and TypeScript.

I'm passionate about crafting beautiful, user-friendly, and fully responsive interfaces that work seamlessly across all devices.

Throughout my career, I've worked on a wide range of projects from corporate websites and internal dashboards to fast-loading landing pages focused on delivering an exceptional user experience.

I'm also skilled at collaborating with UX/UI designers, backend developers, and QA teams, with a strong focus on clear communication and aligning with team goals. I enjoy working in cross-functional teams where we can turn ideas into products that truly solve user needs.

WORK EXPERIENCE

May 2024 - APR 2025
Front-End Developer at PTT Digital Solution (Outsourced Onsite)
- Developed and maintained a POS BackOffice Web Application for a large-scale retail business.
- Built the front-end using Next.js and TypeScript, ensuring scalability and performance.
- Worked closely with back-end developers and business teams (without a dedicated UX/UI team) to design and implement UI components based on business requirements.
- Integrated various APIs to support POS operations, data analytics, and real-time updates.

Set 2023 - Dec 2023
Full-Stack Developer ICreativeSystems Co.,Ltd
- Separated responsibilities between Front-end and Back-end
- Developed front-end using React, TypeScript, and Material UI
- Developed APIs using Golang for back-end.
- Managed PostgreSQL database.
- Utilized Docker and Google Cloud Platform.

Jun 2022 - Aug 2023:
Front-end Developer at ICreativeSystems Co.,Ltd
- Developed user interfaces with React, TypeScript, and Material UI
- Collaborate with designer and Backend teams to ensure seamless integration of UX/UI designs and APIs.
- Develop a responsive and user friendly.
